25X1

1. During December 1953, work on the laying of the second track between Ludwigsfelde and Jueterbog proceeded under high pressure because it was to be officially inaugurated on 21 December. The celebrations had to be postponed, however, because of difficulties in the supply of materials.
2. Double-tracking has been completed on the Luckenwalde-Jueterbog sector with the exception of one or two short stretches where switches still have to be constructed and ties and screws are still missing. Ties are lying alongside the track. Inauguration of the line is scheduled to take place on 15 January 1954 in Kloster Zinna.
